

Gentle Snackers®

CANINE TREATS

Clinical Considerations:

Pet owners love to give their pets treats, but treats are often restricted for dogs on special diets. Purina® Pro Plan® Veterinary Diets Gentle Snackers® canine treats offer a highly-digestible option. Based on Purina® Pro Plan® Veterinary Diets HA Hydrolyzed® Canine Formula, these crunchy treats can be given to dogs with food sensitivities and/or sensitive gastrointestinal tracts.

Medical Indications:

Gentle Snackers is recommended for the following:

- Dogs on alternative protein or hydrolyzed diets
- Dogs with sensitive gastrointestinal tracts
- Dogs on gastrointestinal diets
- Healthy dogs on a maintenance diet

Medical Contraindications:

- None

Treat Characteristics:

Gentle Snackers have been formulated with the following characteristics:

- Low molecular weight
- Easily digested
- Single hydrolyzed protein source

Actual Size

Feeding and Administration:

The caloric intake from treats should not exceed 10% of a dog's total daily caloric requirement. If treats are given, the amount of food should be reduced accordingly.

AVERAGE NUTRIENT CONTENT

	AS FED	DRY MATTER
Protein	19.02%	20.67%
